Range.....5,000 + nautical miles

The new Bering 65 is a rugged and modern looking expedition yacht built for long range cruising with a more contemporary styling. The modern approach suggests a combination of power, strength, innovative design and originality all of which set out a new direction for Bering in the European market. She is quiet, strong and leaves a graceful wake underway. Her displacement is over 235,000 pounds and with 4,500 gallons of fuel you can easily cruise for thousands of miles burning a combined 8 gallons an hour at 8 knots.

@ 2016 Bering Yachts

Bering 65 Nomad features clean crisp lines and a greater use of fabrics and non-traditional woods which suggest a more modern tone than the typical full displacement trawlers. Her interiors are lavishly crafted with beautiful woodwork and a variety of counter, flooring and upholstery selections. The use of large glass panels surrounding the saloon as well as the large vertical portholes in the lower decks create a refreshingly open and airy feeling while aboard.
